## CVC Partners with Rock Entertainment Sports Network to Re-air League Broadcasts

By **Steve Hare**

August 21, 2025

The Chagrin Valley Conference and Rock Entertainment Sports Network have agreed to a partnership to re-air CVC TV broadcasts on RESN this fall.

RESN is available on Spectrum across Northeast Ohio on Channel 979 in addition to free over-the-air access on channel 22.1 all across the state of Ohio. RESN reaches over 235,000 households across Northeast Ohio and over 1.35 million households in the state of Ohio.

"We're thrilled to be able to double our local high school and college football coverage on Rock Sports this year," said Michael Conley, Rock Entertainment Sports Network President. "Our mission has always been to bring communities closer to the teams and traditions they care about most. By expanding the number of Ohio games we'll showcase—and enhancing the production with new wraparound programming and fresh on-air talent—we're raising the bar for how local sports are covered and celebrated.

CVC TV will continue to broadcast live games on its YouTube channel.

The CVC is currently soliciting sponsorships for its broadcasts. Interested companies should contact Steve Hare at [stevhare@chagrinvalleyconference.com](mailto:stevhare@chagrinvalleyconference.com) for more information.
